(Incorporated in the Republic of Singapore)

("Company" and together with its subsidiaries, the "Group")

NEWS RELEASE:

DiSa Advances GPS and Navigation Products to Open Sell with the Largest Retailer in the World

Today, the Company wishes to announce their collaboration with some of the top performing brands within the GPS and Navigation retail industry.

Singapore, 21 August 2017 – DISA Limited is pleased to announce that its wholly-owned subsidiary, Disa Digital Safety (USA) (DBA "**DiSa**"), a US-based Asset Protection solution provider, had during this past May launched the open sell of tablets using the Point-of-Sale Activation ("PoSA") Solution while revolutionising the retail industry and consumer shopping experience. This September, top rated Global Positioning System ("GPS") and Navigation products will be sold in open sell format. For the very first time, retail consumers will have the ability to purchase premium GPS products directly off store shelves and will not be hindered by glass cases that require retail associates' assistance. In turn, the related vendors' product sales are projected to increase, along with a reduction in labour costs.

DiSa's Point-of-Sale Activation, known as PoSA, keeps products non-functional until the customer inputs a one-time activation code found on their receipt. This PoSA Solution is certified to be hack-resistant, reducing associate and external theft. The process captures purchase data in real-time, eliminating return fraud and allowing for a hard-decline by customer service. Without the code, the product will not work, making it useless to shoplifters which, in turn, makes the open sell environment possible.

In recognition of the technology DiSa has invented and implemented at manufacturing to store level for product brands, retailers and consumers that during this past April, DiSa was awarded the highest honour in the asset protection community by the Retail Industry Leaders Association ("RILA"). DiSa surpassed its competitors and won the 2017 (R) Tech Asset Protection: Innovation Awards.

RILA is the trade association of the world's largest and most innovative retail companies. Its members include more than 200 retailers, product manufacturers and service suppliers, which together account for more than US\$1.5 trillion in annual sales, millions of American jobs and more than 100,000 stores, manufacturing facilities and distribution centres domestically and abroad.

About Disa Digital Safety (USA) (DBA "DiSa")

DiSa Digital Safety (USA), ultimately a wholly-owned subsidiary of DISA Limited, provides digital asset protection with the PoSA Solution. The DiSa PoSA Solution is the

world's first fully digital asset protection technology for consumer electronic products allowing for open sell retail environments. Each device is assigned a unique activation code and is digitally locked preventing theft by rendering the devices inoperable from the point-of-production to the point-of-sale at retail stores. The device remains locked until the buyer activates the device using a one-time activation code that is printed on the retail sales receipt. Once activated, the device remains permanently unlocked and fully functional. DiSa offers full support to manufacturers, retailers, and consumers.

About DISA Limited

DISA Limited (SGX: 532), formerly known as Equation Summit Limited, is a publicly-traded company on the Singapore Catalist Stock Exchange. With decades of experience as a multifaceted manufacturer and retailer, the company has grown to center its principle activity in investment holding.
